& Air Conditioning

Refrigeration

Medical Equipment

Healthcare Engineering

Compressed Air

Vacuum & Blowers

Nitrogen Generation

A nationwide service for national accounts

TFG Group self-delivers facilities maintenance and asset management to commercial and public sector clients throughout the UK

Our sales, installation and support services include property management, compressed air, blower and nitrogen generation equipment, heating ventilation and air conditioning, refrigeration, medical and healthcare devices.

We are local

We don't operate call centres. Instead, we pride ourselves on staying local to your business so you get the service you deserve from a friendly face that understands your needs. With ten, independently owned TFG Group companies located across the country, customers are always assured rapid response to their equipment and building maintenance needs.

We are national

There's strength in numbers and TFG Group is providing multi-site, multi-discipline service to some of the country's leading businesses – from retailers, to manufacturers; from commercial property to building services; from the National Health Service to the Ministry of Defence.

We are TFG Group

Continual training, knowledgeable staff, a host of industry accreditations and a portfolio of more than 2,000 customers across the UK means TFG Group is expertly positioned to take care of your facilities maintenance and asset management needs.
